July 26, 2016

We are very excited about the 2016-2017 School Year!

Much of the summer has been used to work with teachers, the School Board, Administration, and School Site Leadership to establish direction and preparation for a successful school year.

Last year we had an intentional focus to improve Safety and student learning about the Common Core State Standards. This year, in our ultimate drive to improve student readiness for college and careers, the areas of emphasis will lie in safety, parent engagement, and customer service.

We have great teachers and principals at every school site. Not only does the research tell us that this is critical, but we all know how important that is as we visit the schools and see how they operate. It is our full intention to engage parents and students in school, have high expectations for learning, and create a culture of respect.

Our technology development has been robust; thanks to the support of the voters. We have begun the first phase of upgrading our security camera systems at all school sites. Improvements are being implemented for security access and improvement of older buildings. New and updated computers are being delivered and installed at every school site, and our technology infrastructure has been updated to accommodate the changing requirements of new technological developments.

The new Rio Grande Elementary School is on track. We have secured an architectural designer and the process is moving along well and on schedule. The lagoon removal project will begin this fall at Dennis Chavez Elementary.

Belen Schools keeps healthy and solid athletics programs for all students. Not only are our students bringing home trophies and competition successes, we are proud that many student have come home with outstanding reports about their behavior and respect. This we celebrate and look forward to in future activities.

Most importantly, the Belen School District has some of the most talented and passionate educators in the state. Our support staff is highly committed to their work. All of us are committed to keeping high academic standards so that every student, parent, and community member remains confident that Belen students continue to receive a quality education in preparation for their college and career pursuits.

Max E. Perez, Superintendent

Eagles Flying to Higher Standards
